PROFESSIONAL SUMMARY

Detail-oriented professional with experience in QA testing, data validation, and financial record management. Skilled in identifying inconsistencies, conducting structured data reviews, and producing clear reports to support accuracy and system reliability.

WORK EXPERIENCE

QA Associate | One Php Technology, Inc. Jan 2025 – Mar 2026

- Performed manual testing for HRIS and e-commerce platforms, identifying defects early and achieving 94% defect accuracy.
- Worked closely with developers to reproduce and validate fixes, contributing to a 95.8% bug resolution rate.
- Maintained clear QA documentation and improved Dev-to-QA handoff, helping reduce release delays.
- Tracked recurring issues and supported better prioritization through organized reporting.

QA Intern | One Php Technology, Inc. Aug 2024 – Nov 2024

- Executed test cases and documented issues with clarity, improving defect visibility for developers and accelerating debugging cycles.
- Conducted retests and validity checks to confirm defect resolution and reduce recurrence.
- Maintained QA records and reports to support consistent tracking of testing progress and results.

Data Entry Clerk | Christy Olaño's Accounting Office Jun 2023 – May 2024

- Processed and accurately recorded sales invoices in QuickBooks and Excel.
- Performed balancing and liquidation of daily transactions to ensure accurate financial reporting.
- Reviewed entries for discrepancies and corrected errors to maintain data accuracy.
- Organized and digitized financial records to improve tracking and accessibility.

Graphic Design Intern | Asia Premiere One Source, Inc. Nov 2019 – Dec 2019

- Created visual materials using Canva to improve clarity of reports and presentations.
- Assisted in document formatting and ensured consistency with branding guidelines.

EDUCATION AND CERTIFICATION

Bachelor of Science in Information Technology | Rizal Technological University 2025

Excel for Business | Certificate Program | Coursera (Online) 2026

Completed training in Excel fundamentals for business use, including data organization, basic analysis, and spreadsheet management.

SKILLS

- Manual, regression, and smoke testing for system validation and release readiness
- Data validation, defect logging, and reconciliation for accurate records in QA and finance-related work
- Microsoft Excel, MS Office 365, and QuickBooks for reporting, tracking, and financial/data management tasks
- Shortcut and Jam.dev for defect tracking and test case documentation
- HTML, CSS, React, and Tailwind CSS for frontend development
- Figma and Canva for UI mockups and design materials
